The California Senate has passed the bill requiring journalists to sign all articles written by them for newspapers. We don't favor this idea. It seems to us that the editorial "we" fills every requirement, and of course the editor is responsible for each article written by himself or by his sanction. It looks like egotism for a writer to sign his name to the articles he may scribble. Still there are advantages to be derived, as for instance, when some writers who are noted only for writing very long and exceedingly thin articles, afflict the reader with their effusions, it is a mercy then to let the public know who he is. If personal journalism becomes a law in California we may expect to find items in the papers published there about as follows:

"I brand George Washington Jones as a poltroon, and a man who would shake his grandmother."

BARTHOLOMEW SMITH.

Susan B. Anthony reads by gaslight with a tumbler of gin and a toothpick. She is said to be able to jump seventeen feet by the watch. No wonder she never was married.

TIMOTHY SAUERKROUT.

It is with fear and trembling that I grab my quill to call the attention of the public to the fact that Mrs. Jemima Peachblossom is flirting with the innocent Mr. J. Henry Kingpin.

C. AUGUSTUS BUMBLE.

It is exceedingly sorrow to me an to mine from to no wat I dose of mine from run of mit Yoonb Flungluzer I broke his head mit a kirk of his noz.

HONIX CHIESBURGH.

I never said the American eagle was born in Italy as the nasty scoundger of the Dingtown Ploocipa asserts in the last issue of his contemptible disgrace. I merely remarked that it was cross-eyed, had worms and lived on bacon and string beans. Try again, pukey.

E. KARNES TUCKERTON.

The brilliant stars they shine in vala, For private and sad I sit, In my stomach there is a pain, And a dose of pills I must git.

MRS. OPRIMA ALMOND.

GIVE THEM CREDIT.

Away back as far as old Father Adam's time we find the "lords of creation" shirking responsibility and throwing it upon their wives. Adam eat a part of the forbidden apple, yet when questioned about it, he with surprising self-possession gave Eve all of the blame. The same principle holds good still. Attorney General Williams was rapidly rising to fame, position and power, when certain irregularities were discovered and lo, the wife, who had hitherto never been mentioned, receives the lion's share of the blame. Now Belknap finds it very convenient and manly to throw a large portion of his odium upon his wife. It strikes us that this is hardly fair. How many men who have left brilliant records behind them, have received their first inspirations from the gentle, confiding wife, who, while in obscurity at home, awakens in him such ambitions and noble promptings that he becomes great almost in spite of himself. Of these we scarce ever hear, but should she make a misstep while trying to satisfy his vanity by dressing and living beyond their means, then she receives her portion of blame and too frequently, man, with surprising magnanimity, gives her his portion too. If they must receive this mod of blame, in all justice give them their share of the praise, also.

This bill to reduce the salary of the President of the United States from \$50,000 to \$25,000 per annum passed the Senate Tuesday by a vote of 28 to 15.

This long contest between Omaha and Council Bluffs as the terminus of the Union Pacific appears to be decided in favor of Council Bluffs.

EDITORIAL DOTTINGS.

Mexico has one village of out-throats who seem to outstrip the rest in villiany. It is called Boquilla. Their reported depredations and rascalities should cause Uncle Sam to fall upon them like an avenging Nemesis.

The inflationists of Indiana want Newton Booth, of California, for President. We should fancy that Booth being from a decidedly hard money State, would question this preference, but then these professional politicians can strain points amazingly.

Stage fare from Laramie to Custer City, in the Black Hills—247 miles—is only \$10. This certainly is very cheap, and if there was any fortunes after can get there it might serve as an attraction.

LATEST NEWS ITEMS.

The Downsville and Marysville stage was robbed on Stanford Hill, eighteen miles out of Marysville, on Wednesday.

The Eureka Miners' Union have notified the Superintendent of the Richmond Mining Company that after a certain date he must employ members of the Union only. The Superintendent says he will shut down the works first.

The English Rifle Association will send a team to America to contest in the international rifle meeting next Autumn.

The Northern Belle.

The Lyon County Times speaks of the Northern Belle as "an Eastern Nevada mine." The Belle is in Esmeralda county, only 40 miles east of the California line. The achievements of this mine are worth an item. About three or four years ago its owners offered it for sale at \$35,000, without success. A year and a half ago Mr. Bateman, with the greatest difficulty, disposed to his personal friends of shares enough at \$8 per share to build a mill on the property. That mill started about ten or eleven months ago with a debt of \$40,000 hanging over it. The mine has paid the debt, paid to each stockholder \$9 per share, and the stock is now worth \$88 per share. The company will double their stamps during the next four months and with their completion dividends will be doubled; and those who have seen the property declare that there are several years' dividends in sight. The yield of the mine for several months has been about \$110,000 per month.—Virginia Enterprise.

A Frenchman who has lived in America for some years says: "When they build a railroad, the first thing they do is to break the ground. This is done with great ceremony. Then they break the stockholders. This is done without ceremony."—Ee.

That won't do. The railroads of this country are built by the Government, and then the "stockholders" try their level best to break the Government by filling their own pockets and giving it—nothing.

The Pacific Mail Company have decided to issue \$2,000,000 bonds to take up the floating indebtedness of the company.

AN HISTORIC QUILL.—The Rome, N. Y., letter to the Utica Observer says that among the many novelties and relics of one hundred years ago, that are expected to be on exhibition at the celebration of the American Centennial in that city, is the pen used in signing the Declaration of Independence. The ancient pen is now in the possession of Uncle William Lloyd, at Westerville, N. Y. He is in the eighty-sixth year of his age. His father, General Lloyd, was one of the signers of the Declaration of Independence with this now one hundred year old pen. This curiosity is made from a quill taken from a Scotch goose, and is twice the size of those which grow in this country. It is now thought that the attendance of "Uncle Bill" can be procured, and that he will go through the form of signing that which made his country free one hundred years ago.

Mrs. SENATOR JONES.—This is from a reception report in the Washington Star: "One of the most elegant toilettes seen is that of Mrs. Jones, wife of the Nevada Senator. A puffed tulle train was worn with an overdress of white satin, embroidered in white silk, studded thickly with bangles; the embroidery was arranged in horizontal bands. The skirt was en traine and the corsage low, filled in with white tulle and garnished with bands of embroidery similar to that used on the skirt. Her necklace, of solitaire diamonds of unusual size and purity, was worn on a band of black velvet about her fair throat; the earrings were very large and brilliant solitaire diamonds, and the gold bracelets were set with similar precious stones."

COUNTING THE WHITE HORSES.—A Chicago girl went through the livery stables of the city, with tender, trembling hopes agitating her suddenly bosom, to count the whitehorses. (It is a well known fact that the counting of white horses by a maiden insures a meeting with her future husband upon the one hundredth count.) As she progressed, joyful expectancy took the place of fear and trembling, dazzling prospects loomed up before her, the prize was almost within her grasp, 95, 96, 97, she neared the goal, she reached it—to fall fainting in the arms of the negro hostler!

At the Sabbath School, in Deering, Maine, last Sunday one of the teachers of a juvenile class was explaining the necessity and duty of prayer. She finally asked one little girl if she knew what was meant by prayer. The child replied that she did not. The teacher, to illustrate, asked the little girl, "What did your father say this morning just before he ate his breakfast?" The child innocently answered: "He said, p—n it, this egg is rotten."

When a girl crops her front hair and pulls it down over her forehead like a Mexican mustang and then ties a piece of red velvet around her neck, who can wonder at the number of pale faced young men that throw away their ambition and pass sleepless nights in trying to raise down on their upper lips?

They don't Beecherize any more up in Ohio. When a man exudes too much Christian kindness towards his neighbor's wife they stop his pores up with tar. This saves a great deal of labor in preparing statements and getting an advisory council.

At a young ladies' seminary, during an examination in history, one of the pupils was interrogated: "Mary, did Martin Luther die a natural death?" "No," was the reply, "he was excommunicated by a bull."

The Vest Pockets.

A young man from the suburban districts was in one of our tailor shops getting measured for a vest, the other day.

"Married or unmarried?" queried the merchant, after taking down the number.

"Unmarried," said the young man, with a blush.

"Inside pocket on the left-hand side, then," observed the tailor, as if to himself, making a memorandum to that effect.

After a moment's pause, the young man inquired:

"What difference does my being married or unmarried make with the inside pocket of the vest?"

"Ah, my dear sir," observed the tailor, with a bland smile, "all the difference possible, as you must see. Being unmarried you want the pocket on the left side, so as to bring the young lady's picture next to your heart."

"But don't the married man also want his wife's picture next to his heart?" queried the anxious youth.

"Possibly there is an instance of that kind," said the tailor, arching his eyebrows, "but I never heard of it."—Danbury News.

COURTSHIP AMONG THE MORMONS.—On Saturday, a Mormon by the name of Fulmer, who had been chosen among the faithful to go on the mission to Arizona, called upon Brigham Young.

"Married?" queried the prophet. "Not any," said Fulmer, over whose brow 40 odd years had left their imprint.

"Must marry, brother Fulmer, before you go to Arizona to build up the kingdom."

"Don't know anybody who will have me," was the reply. "Do you know Brother Brown in the Seventeenth Ward? Well, he has several daughters."

Fulmer left and obeyed counsel to the letter. Knocking at the door he was admitted by Brother Brown, who, upon learning what was wanted, called in his several daughters to be selected from.

Fulmer taking his choice, Brown told the girl to get ready in fifteen minutes.

"I'll do as you say, dad," was her meek reply, as she walked out.

"That's the way I raise my daughters; if they disobey there's war in camp."

The wedding festivities take place to-night.—Salt Lake Tribune.

FAST FREIGHT.—There is some talk in New York of organizing a fast freight line to San Francisco by rail. We hope it may not end simply in talk. There is urgent need for a reform in the matter of forwarding freight from Eastern cities to San Francisco. The present proposition favors a schedule of fourteen days.

If the new arrangements approximate that time, they will be vastly better than anything we have yet had from the railroad folks. No one now expects to get freight through under three weeks, and it is often from four to six weeks; and there have been cases when from eight to ten weeks have elapsed between the period of shipment and the date of arrival.

A fast freight line by rail, with moderate charges, would make the Isthmus route a very unprofitable business.—S. F. Bulletin.

ROADSIDE RAISED.

ROADSIDE RAISED.—This blockade
which has obstructed the trains near
Ogden since last Friday, is raised,
and the imprisoned trains liberated.
Two trains from the East got through
Wednesday night and the rest will
follow in quick succession. One
train passed through here last even-
ing on its way westward. A strong
wind was blowing at the "front" yester-
day but as the snow was thawing
rapidly it is thought the road can be
kept clear. There was twenty feet of
snow at the scene of the blockade,
but if the warm weather continues
the snow will pack, and no fears of
any further blockade need be feared.
While the men were fighting the snow
they threw a snowplow off the track
and two engines down an embankment
seriously hurting Openshaw, an en-
gineer, and injuring Oscar Bedell so
seriously by mashing his legs to a
jelly, that he died in a few hours.
The engineer will recover. No fur-
ther serious mishaps occurred among
the large force of shovellers, though
there were numberless narrow es-
capes. But the blockade is cleared
and all are happy.

ST. PATRICK'S DAY.

ST. PATRICK'S DAY.—To-day is the
"17th of Ireland," and it is befitting
that the death of the patron saint of
the shamrock should receive an ap-
propriate commemoration. With this
idea in view the McGinley Sisters
have decided to give a ball to-night
at the Opera House. The more an-
nouncement of this fact will be suf-
ficient to fill the hall with a gather-
ing of dancers who will, while feel-
ing the responsive glow of admir-
ation for the old saint, trip the hours
away to soul-inspiring music, that
will remind them of that grand old
historic harp, and awaken the mem-
ories of the past, when Tara's Hall
was a reality and when the harp
seemed to re-echo the music from
above the stars. Go to-night and
wear all the green you can.

REPAIRS.

REPAIRS.—No. 48, our yard engine,
went to Wadsworth yesterday morn-
ing, for the purpose of receiving an
overhauling and general cleaning up.
In the meantime Reno will be with-
out a yard engine.

THA HAND ENGINE.

THA HAND ENGINE.—The hand engine
was out yester-
day to test the new nozzles, and the
results were entirely satisfactory.

BAPTIST CHURCH.—In our rambles
after items yesterday we interviewed
Rev. O. L. Fisher, and ascertained
the following figures and facts about
the edifice this society is building on
Second street. The audience room
is 30 feet wide by 40 long and
16 high. It will hold 33 seats,
which will accommodate 175 people.
In addition to these there is a circular
seat for the singers with 13 sittings.
The baptistry is under the rostrum
and will be lined with zinc. A
searcy of lumber has retarded the
work somewhat. They are now
painting it. The outside is to be
drab, trimmed with white, while the
inside will be pure white. The roof
is already painted with fire proof
paint. The roof is substantially
braced, and in fact the whole build-
ing is splendidly made. The seats
will be grained and will be so ar-
ranged that there will be two aisles
leading from the vestibule to the
pulpit. It was the expectation to be
able to dedicate the church on the
first Sunday of next month, but it
will take place positively on the sec-
ond Sunday. It will cost not to ex-
ceed \$1,300. Our Baptist friends
will have a neat little edifice when
their temple is completed.

ROUND TRIP OF FR.—R. D. Paschen
has just returned from Sierra Valley
where he went after cattle some
twelve days or two weeks ago, hav-
ing been snowed in most of the time.
He says the cattle are dying from
starvation in Sierra, Long and Mo-
hawk valleys at an alarming rate,
one man last week having lost twenty-
five head in one day. Mr. Paschen
came round by Long Valley and
Reno, and in getting back to Truckee
he traveled through two States, three
counties, four large valleys and four
towns. The Republican says he
brought back fifteen head of fine
beef cattle with him. Mr. P. is all
right but his face is badly blistered,
and he is as black as a Moor.

CALIFORNIA MINSTRELS.—This even-
ing, at Dyor's Hall, the famous Cali-
fornia Minstrels will appear. With
such stars as Harry Conrains,
Johnny Nash, Wm. Contright, J.
C. Russell and Billy Bray, besides a
large number of others they can not
fail to offer here. Their success in
Virginia has been unprecedented, so
much so that they have been com-
pelled to put in 200 extra seats to ac-
commodate the crowd. This is a
troupe of much more than ordinary
merit, and all will do well to go and
see them.

NATIONAL DELEGATES.—A telegram
informs us that the Republican State
Central Committee which met in
Virginia City yesterday, selected the
following gentlemen to represent
Nevada at the National Convention
to be held in Cincinnati on June
14th: Senators Jones and Sharon,
R. S. Clapp, Frank Bell, Thos. Wren
and C. N. Harris.

BULLION.—The richest bullion that
has yet been sent from the Consoli-
dated Virginia mine went through
Reno a night or two since. They
averaged \$6,000, or about \$2,000
more than the usual amount. The
bricks were no larger, but the
amount of gold contained was
greater.

NEAT.—The Reno Library has
been fitted up very nicely indeed.
The Rooms have been painted, the
chess room fixed up comfortably,
and everything that could add to the
attractions and utility of the place
can be found here. It is a popular
and belittling place of resort.

FOUR DAYS' MAIL FROM THE EASTERN
part of the State arrived here Wed-
nesday night. For three days pre-
vious local trains were made up at
Reno, while the train which arrived
on Wednesday night was made up
at Elko, hence the arrival of the de-
tained mails.

ECLIPSE.—Old Sol's face will be
veiled by Luna on Saturday, the
25th inst. The show will commence
at a little after 11 in the morning
and end at about 2 p. m. Admission
free, children half price; front seats
reserved for ladies.

REPAIRS.—No. 48, our yard engine,
went to Wadsworth yesterday morn-
ing, for the purpose of receiving an
overhauling and general cleaning up.
In the meantime Reno will be with-
out a yard engine.

THA HAND ENGINE.—The hand engine
was out yester-
day to test the new nozzles, and the
results were entirely satisfactory.

Local Events.

Yesterday was a beautiful day.
Dan DeQuille's new book will be
called "Bonanza." Appropriately
named,
Please don't get off that joke about
the year having only 325 days—be-
cause the other 40 are Lent. Stale,
you know.
St. Patrick died March 17, A. D.
460, aged 76 years.
The Sauto boro is now in 12,479
feet.
Another set of teeth has been left
at this office. Now we want to know
how it is that people lose their teeth
so easily. It's all right, we suppose,
but still one ought to know the dif-
ference between "toothling" and
"gumming" it. The pair now before
us has one tooth on the larboard
and two more on the starboard side.
All of which can be had C. O. D.

The San Francisco Post of March
10th says it is officially announced
that the Government has purchased
\$20,000,000 of the Consolidated and
California mines. Suppose this bul-
lion was cast into bars worth on an
average \$1,000 each, there would be
5,000 of them. If they were to weigh
100 pounds apiece, the total weight
would be 500,000 pounds—a weight
that would worry anyone to get away
with it. Counting eight hours a day
at the rate of \$50 a minute, it would
take a person two years and a quar-
ter to count it. It is easy enough to
say \$20,000,000, but very few realize
its magnitude of it until they begin
to figure a little.

In the Supreme Court is the case
of the Controller vs. the Treasurer of
Washoe county. Mr. Hobart sues
for a mandamus to compel that offi-
cer to disgorge into the State Treas-
ury a proportion of the 25 per cent.
of certain tax moneys paid by the
Central Pacific Railroad Company.
Washoe had some right hard lawing
to get that money and it will seem a
little tough if she has to divide with
the State.—Carson Appeal, 15.

K. or P.—Amity Lodge, No. 8,
will hold its regular weekly meeting
this evening. All members in good
standing are requested to attend, as
business of importance is to be trans-
acted.

THE EUREKA SENTINEL paints a rather
gloomy picture of the present busi-
ness status of that burg. Quite a
number of miners have recently
been discharged, and things generally
brought to a stand still. On the
return of good weather, there will
doubtless be a reaction, in some ex-
tent, at least.

AN EGYPTIAN steamer with troops
on board was the scene of a fearful
disaster the other day. While at
Suez her boiler exploded and twenty-
four men were killed. If Egypt
had but stuck to her pyramids and
her mummies, she never would have
suffered this disaster.

A CORNELL University professor
says: "If you get choked, drop down
on all fours and cough." That's
nice advice to a man with a pair of
fifteen-dollar lavender pants on.

FOR SALE.—A horse and dray is
offered for sale cheap for cash. In-
quire of Drannan, at Iraman &
Richardson's saloon.
